

Senior Inventory Analyst

In 1973, Karndean started life as a small family business. Now we are one of the world's most renowned and respected luxury flooring brands. We recognise our people as being the key drivers of our success and it's their passion and innovation that has allowed us to continue growing as a business.

We have an exciting opportunity for a **Senior Inventory Analyst** to join our team. This position is well-suited to a analytical thinker who likes to think outside the box in order to promote a continuous improvement approach to inventory management.

This position is based in the Procurement department and answers to the Head of Purchasing. As the **Senior Inventory Analyst** you will be required to have a passion for data and reporting and articulate this into a format which inspires value added change.

Responsibilities:

- Leadership responsibilities, to include Appraisals, Performance, KPI's, bonuses, and sickness and Absence.
- Using Optimiza plus other sales data sources to generate monthly stock and sales reports to forecast accuracy, stock, provision, POS and KPI's.
- Month end process to include sales forecasting and policy settings review.
- Maintaining and improve company's inventory by analysing statistics of product performance.
- Draft inventory reports for inventory counts, discrepancies, and other statistical data.
- Report inventory statistics to management to improve inventory control
- Be part of the annual budget process to be able to establishing a base line forecast for the next 18-months, with recommendations based on the forecast.
- Support the product launch process to include monitoring actual progress against launch sales forecast (including POS).
- Represent Supply Chain in product launch meetings and to delegate tasks to team.
- Monitor commercial specifications, take appropriate actions to ensure suitable stock levels are maintained to meet specific and general sales demand.
- Implement and Oversee the S&OP process with stakeholders throughout the business.
- Document all related processes and procedures to include training.

Requirements:

- 2+ years' experience in supply chain supervisory role
- Use of Microsoft office products
- Use of ERP systems, preferably Nav Business Central
- Strong leadership, Time management, Planning and Communication skills, problem solving
