Healthcare

Why Karndean?

Benefits of Karndean Designflooring...

Comfortable underfoot

Our products are softer, warmer and quieter underfoot than natural wood and stone flooring.

Realistic wood and stone designs

Inspired by nature, our products are designed in-house and realistically replicate the look and feel of real wood and stone materials.

Hygienic

Karndean Designflooring is an ideal choice because unlike carpet and many other floorcoverings, it won't harbour dirt, dust, pollen or other allergens. It is also quick, easy and inexpensive to maintain, with a simple cleaning regime using 100% biodegradable surfactants.

Durable

You can specify Karndean Designflooring in high traffic and high wear and tear environments such as hallways and reception areas knowing that it will last for years. What's more, our K-Guard+ system acts as a barrier against scuff marks, stains and fine scratches.

Waterproof

Unlike laminate and engineered hardwoods, our floors are impervious to water and will not swell, crack or warp when wet.

Key ranges

The following Karndean product ranges are practical and resilient choices for busy **healthcare environments** such as **hospitals and medical centres**.

Karndean LooseLay

Karndean LooseLay features our K-Wave friction grip backing which helps hold the product in place. It creates a strong bond to the subfloor using a combination of weight and friction. What's more, it's easy to install and can be laid over most existing hard floors.

Karndean LooseLay Longboard

Karndean LooseLay Longboard features all the same benefits as Karndean LooseLay but is available in our largest plank sizes to date. At 1500mm, Karndean LooseLay Longboard is even quicker to install and makes a real impact in large spaces.

Opus

Modern and designed to last, the Opus range was conceived with commercial specifications in mind. The collection features a wide range of tones combined with clean lines all supported by a 15-year commercial warranty, a 0.5mm wear layer and P3/P4 slip ratings.

Product Specification

Product	Karndean LooseLay	Karndean LooseLay Longboard	Opus
Size	1050mm x 250mm (24 wood SKUs) 610mm x 500mm (10 stone SKUs)	1500mm x 250mm (20 wood SKUs)	915mm x 152mm & 1219mm x 228mm (14 wood SKUs) 457mm x 457mm & 457mm x 610mm (10 stone SKUs)

Nongs' Clinic

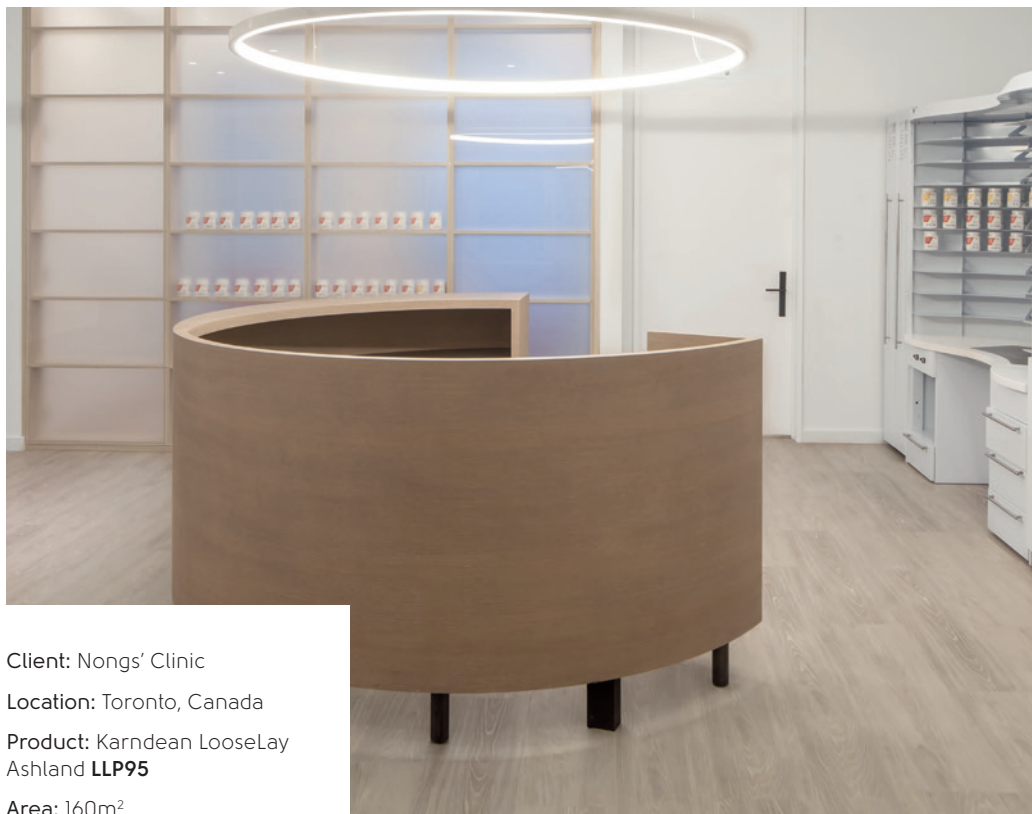

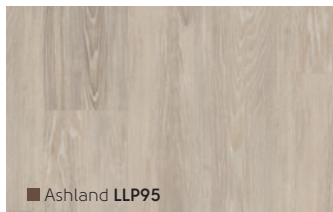

Karndean
LooseLay

LOOSE LAY

With a contemporary elegant look, Nong's Clinic, a traditional Chinese medicine facility welcomes patients into the space with a cool classic floor that complements the décor. The clinic lies within a larger building that is home to family doctors, nutritionists and even a nursing home, creating an integrative care centre. This space was created with comfort and practicality in mind. Paired with the soft white tones of Karndean LooseLay Ashland, the delicate oak grain and traditional straight lay helps bring the look together.

"Using a beautiful natural looking material makes patients feel comfortable walking into the space. In the health sector so often, spaces are designed solely with functionality in mind, with Karndean LooseLay we were able to have functionality and design".

– Jaegap, Architect Studio JCI
