GLUEDOWN

Art Select Wood

Full of charm and character, our premium Art Select wood collections bring the natural beauty of real wood to life in your commercial space. Through meticulous attention to detail and careful selection of some of the most beautiful and inspiring natural woods, our Art Select wood collections include our most intricate designs and realistic embosses. Everything a beautiful floor should be, but so much more, each of our Art Select woods tells its own story.

Reclaimed Chestnut EW21

Handcrafted

Rich and rustic, this collection houses elegant reclaimed hickories with wide cross-sawn boards and characterful sapwood markings found only in old-growth trees; the smoky essence and faithfully replicated knots and grain details seen in our darkest Handcrafted hickories; and the strikingly unique display of warmth and weathered appearance found in the reclaimed boards of the nearly extinct American Chestnut.

Santina Cherry RL07

Cherry Royale

Boasting the intricate character and rich warm hues inherent to natural cherry, Cherry Royale offers superior performance and value. From busy hospitals to bustling restaurants, the stunning visuals, and unique textures and finishes will withstand the traffic of any commercial space.

Spring Oak RL01

Oak Royale

The Oak Royale collection features a traditional handscraped texture, leaving a distinctive, chiseled effect on the planks - reminiscent of the age when craftsmen finished every board by hand. Our Oak Royal collection embodies old world charm and captures all the characteristics of a traditional oak floor.

Midnight Oak HC06

Oak Premier

Inspired by the art of hand carving, the Oak Premier collection recreates the same look and feel of individually chiseled boards, a practice of skilled carpenters during a time when machinery wasn't widely available.

It's not just the floor you lay, but how you lay it that makes a lasting impression. We offer numerous pattern possibilities to make the most of your space. Add design strips and borders for a truly unique look.

Colour and Pattern Reproduction

We are careful to make sure our brochures are accurate and printed to very high standards, but photography and printing cannot always create a perfect representation of our products. For this reason we strongly recommend that you look at a sample of any product you are considering before placing your order.

All of our products are inspired by things we have seen in the natural world. Just as variation in colour and detail is part of the unique beauty of natural materials, it is also a feature of many of our designs. This means that with some of our products you will see natural variation when your floor is laid. If in doubt, ask to see a larger sample of the product.
